

Sliding Folding Shutter Doors

Designed To Suit Your Individual Needs

Designed to give a clear opening height and width when fitted behind the lintel.

Can be used on any type of opening for pedestrian or vehicular traffic.

Each door is manufactured to agreed sizes.

Capable of withstanding in excess of 150mph gusts.

Very easy to repair after impact damage as all vertical members and lattice can be changed in situ without taking down the door.

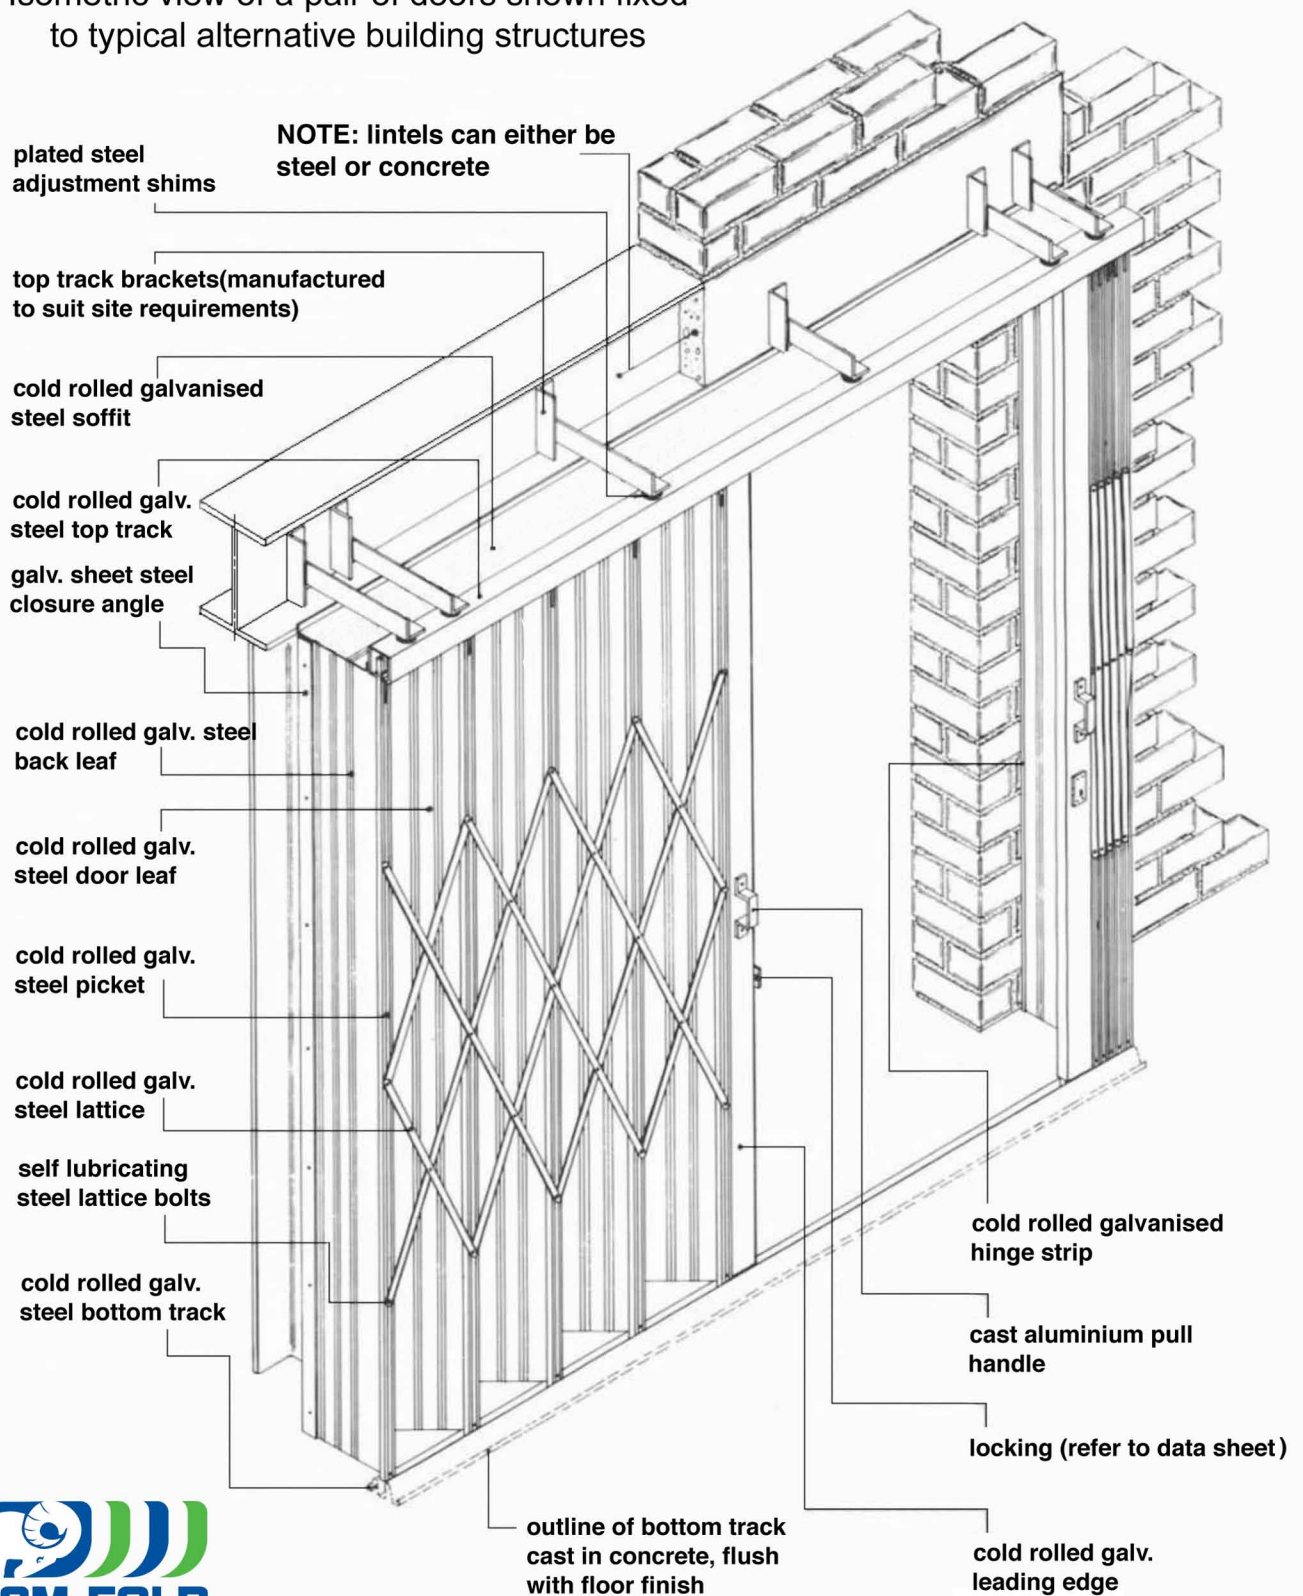

The doors can be either: **Manual or Power Operated, Standard Galvanised or Colour Coated Finish.**

Unit D2 (2), Moss Industrial Estate, St Helens Rd, Leigh. WN7 3PT
